

Hello

I'm Saviour Ise Okhuoya

NIGERIA
(234) 0904-729-4659
SAVIOURISE1@GMAIL.COM

Skills

Frontend Development:

- Proficient in HTML, CSS, JavaScript, and TypeScript
- Experienced with frameworks and libraries such as Angular, React (including React Native and Next.js), and Redux
- Skilled in responsive web design and UI/UX design principles
- Familiar with RESTful API integration and development

Tools & Technologies:

- Version control with Git
- Styling frameworks like TailwindCSS, Component libraries like ShadCN
- Development tools like Expo for React Native applications

Best Practices:

- Performance optimisation and debugging
- Strong understanding of Agile methodologies and project management

Experience

OCTOBER 2024 - PRESENT

The Cozm, Remote – *Frontend developer*

- **Role:** Frontend Developer
- **Technologies:** React, TypeScript, Redux, Next.js, TailwindCSS, ShadCN, REST APIs.
- I build modern, responsive interfaces using Next.js, React Js and TailwindCSS, with a strong focus on accessibility, scalability, and cross-browser compatibility.
- I collaborate with backend engineers to integrate REST APIs seamlessly, improving data flow and enhancing the overall user experience.
- I handle debugging and performance optimisation to ensure faster load times, smoother responsiveness, and efficient application performance.
- I work closely with product and design teams to maintain UI/UX consistency and deliver user-centric solutions within agile workflows.

APRIL 2023 - MAY 2025

Encentrals Solution, Remote – *Frontend developer*

- **Started as:** Frontend Developer Intern - APRIL 2023
- **Promoted to:** Full-Time Frontend Developer - NOVEMBER 2023
- **Technologies:** Angular, TypeScript, SCSS, REST APIs.
- I began as an intern, quickly adapting to project requirements and demonstrating a proactive approach to learning.
- Advanced to a full-time role, taking ownership of complex frontend tasks, including building and optimising responsive user interfaces for cross-browser compatibility.
- Collaborated closely with backend teams, ensuring seamless API integrations and maintaining high standards of UI consistency and performance.
- Spearheaded debugging efforts to resolve UI/UX issues, significantly improving performance and accessibility.

JULY 2024 - DECEMBER 2025

HNG Tech, Remote – *Frontend Developer*

- **Started as:** A Frontend Developer Intern in a highly competitive and intense HNG Internship Program - JULY 2024
- **Promoted to:** Frontend Developer Apprentice - SEPTEMBER 2024
- **Technologies:** React, TypeScript, Redux, Next.js, TailwindCSS, ShadCN, REST APIs.
- Gained invaluable experience in a fast-paced environment, where quick turnarounds, high standards, and continuous learning were critical, consistently meeting demanding deadlines and high standards.
- Built and optimised interactive, complex UI components and responsive interfaces, enhancing both user experience and application performance, under time-sensitive deadlines and stringent project requirements.
- Collaborated closely with team members, overcoming complex technical challenges in a time-sensitive, high-stakes environment.
- Advanced to the apprenticeship phase, deepening expertise with React and Next.js to develop user-focused interfaces and improve app efficiency.

FEBRUARY 2024 - PRESENT

Robex Technologies, Remote – *Frontend Developer*

- **Technologies:** Angular, Ionic, TypeScript, REST APIs.
- Developing responsive web and mobile applications using Angular and Ionic frameworks.
- Leveraging TypeScript to enhance application performance and maintainability.
- Collaborating with cross-functional teams to deliver high-quality user interfaces, resulting in improved user satisfaction and engagement.
- Implementing best practices for code quality and performance optimisation, leading to a 20% reduction in load times.

JULY 2022 - AUGUST 2024

TYNCAD, Remote – *Web Developer*

- **Started as:** Web Developer Intern - JULY 2022
- **Promoted to:** Full-Time Web Developer, then CTO - OCTOBER 2022, JANUARY 2023
- **Technologies:** Angular, Python, Django, HTML, CSS, JavaScript, REST APIs.
- Began as an intern, quickly earning a full-time role and advancing to CTO due to leadership, innovation, and technical expertise.
- As CTO, led the development team in building responsive and interactive web applications, architecting scalable solutions with Angular on the front end and Django on the backend. Championed code quality and performance optimisation, implementing best practices that elevated application speed and efficiency.
- Fostered cross-functional collaboration, ensuring cohesive UI/UX and alignment between front-end and back-end teams, contributing to seamless project delivery.
- Strategically guided technical direction and project prioritisation, setting the foundation for sustainable growth and innovation at TYNCAD.

Live Projects

Dailyfood App – *Mobile apps, Landing page, Admin dashboard*

- **Technologies:** Flutter, ReactJs, NextJs
- <https://www.dailyfood.app/>

Esplendor – *Landing page, Admin dashboard*

- **Technologies:** ReactJs
- <http://esplendorng.com/>

Espay – *Landing page, User dashboard, Admin dashboard*

- **Technologies:** AngularJs
- <https://espay.com.ng/homepage/landing>

Wattlens – *Landing page, User dashboard*

- **Technologies:** ReactJs
- <http://wattlens.com/>

Back2School – *Landing page, User dashboard, Admin dashboard*

- **Technologies:** Angular
- <https://back2school.io>

Personal Projects

Tally

- **Technologies:** Flutter
- **Description:** A mobile app to track hourly, daily and monthly payments and send invoices to receive paycheck
- **Github:** <https://github.com/Saviourise/Tally>

FlavorFinder

- **Technologies:** React Native
- **Description:** A mobile app to manage and suggest breakfast, lunch and dinner when indecisive. It also gives food recipes.
- **Github:** —

Autopilot

- **Technologies:** Flutter, ReactJs
- **Description:** Autopilot ends missed bills, service disconnections and late fees by letting you rank your bills by importance, then automatically paying them from one Monnify-powered wallet in that priority order — so when funds are tight, the bills that matter most always get paid first.
- **Github:** <https://github.com/Saviourise/monnify-autopilot/tree/app>

Education

JANUARY 2019 - MARCH 2024

University of Benin, Benin City, Nigeria – *Bachelor of Science in Science and Laboratory Technology (BSCSLT), First Class Honours*

Graduated with First Class Honours, showcasing a commitment to excellence in science lab technology and related disciplines.

Relevant Coursework: Physics, Electronics Techniques, Advanced Laboratory Techniques, Data Analysis, and Scientific Research Methodologies.

Projects:

- **Electronics Design Project:** Designed and constructed a Contactless Key Card Scanner using RFID technology, with Arduino, applying theoretical knowledge to practical applications.

Awards

Best Graduating Student in Physics and Electronics Techniques, Science Laboratory Technology

University of Benin, 2022/2023 Academic Session

- Recognised for outstanding academic performance and excellence in the field of Physics and Electronics Techniques.
